DUAL BREAK-THROUGH

in the chemistry of
elastic impression materials
for crowns, bridges, inlays and dentures.

Advances in rubber-like impression materials have shown promise in bringing greater accuracy to oral impressions. But both polysulfide and silicone compositions have had drawbacks. Now, through *new* chemical research, Caulk has developed two materials that precisely meet dentistry's needs in both fields. Either RUBBERJEL or JELCONE will fulfill each dentist's personal preference in manipulation.

Caulk RUBBERJEL

- pleasing in color
- tasteless
- almost odorless

Caulk JELCONE

- impressions can be copper-plated or silver-plated
- unique catalyst improves performance

- Accuracy unsurpassed in other materials
- Dimensional stability, even when pouring is delayed
- Strength, even in gingival crevices and interproximal spaces
- Hard, smooth surface on stone cast
- Duplicate models may be poured without loss of accuracy
- Good working properties

More Vitallium Partials Are Prescribed Than

WHAT IS THIS REASON?

Is it because the personnel of each of our laboratories has so much more experience? Or is it because we constantly keep abreast of new developments in dental prosthetics and maintain a continuous program of refresher courses for our technicians? Perhaps it is because the alloy we exclusively use in constructing partials is Vitallium®, the alloy that is quality-controlled to meet exacting standards of surgery and implant dentistry as well as oral use.

The reason is all of these things, but mostly it is proven dependability and know-how.

They Other Kind---With Good Reasons Why

THE CALENDAR

- October 15 & 16:** NORTH SIDE BRANCH: First Workshop of the season will be presented at Tam O'Shanter Country Club.
- October 16:** CHICAGO DENTAL ASSISTANTS ASSOCIATION: A meeting will be held at the Palmer House, 8:00 p.m. Dr. N. J. Giese will Discuss "Foot Path to Foot Comfort."
- October 21:** CHICAGO DENTAL SOCIETY: The first meeting of the 1958-1959 season will take place at the Conrad Hilton Hotel, 8:00 p.m. The first portion of a course on Prosthodontics will be presented—please turn to page 16 for complete program.
- October 23:** FAR WEST STUDY CLUB: Meeting will be held at Louis' Restaurant. Dr. Harold Epstein will speak on "Endodontics Under Pressure."
- October 24:** NAVAL RESERVE COMPANIES 9-2, 3, 5: A dinner meeting at the Chicago Yacht Club will have admiral Alfred Harris as guest of honor. Dr. Harold Hillenbrand will be the guest speaker.
- October 28:** ARCOLIAN DENTAL ARTS SOCIETY: A meeting will take place at the Belvedere Restaurant. The speaker will be Dr. N. Brescia; his topic, "Dental Anesthesia and Temporomandibular Joint Anatomy."
- November 4:** KENWOOD-HYDE PARK BRANCH: Regular monthly meeting will be held at the Del Prado Hotel. Dr. Tom McMeekan will speak on "Practice Management."
- November 4:** NORTHWEST SIDE BRANCH: Regular monthly meeting at Stella's Restaurant will feature a discussion by Dr. Seymour Yale on "Marked Reduction of Radiation in Selective Filtration."
- November 10-13:** AMERICAN DENTAL ASSOCIATION: 99th Annual Session will take place in Dallas, Texas.
- November 11:** ENGLEWOOD BRANCH: Regular monthly meeting will be held at Nielsen's Restaurant. Dr. William O. Vopata will talk on "The Challenge of Modern Dentistry."
- November 26:** NORTH SIDE BRANCH: Annual Clinic Day will take place at the Edgewater Beach Hotel.
- February 8-11, 1959:** CHICAGO DENTAL SOCIETY: 94th Midwinter Meeting will take place at the Conrad Hilton Hotel.

Volume 36 • No. 8

POLICY COMMITTEE

Orville C. Larsen, Assistant Editor

It has been suggested to me that the membership of the Chicago Dental Society would welcome some information regarding the policies governing the conduct of the Society's day-by-day operation, as these policies now stand. This we shall attempt to do in this and succeeding issues of the FORTNIGHTLY REVIEW until all have been covered.

As you perhaps know, last spring a committee consisting of Dr. Elmer Ebert, Chairman, Dr. Edwin W. Baumann and Dr. James H. Keith, was appointed by the Board of Directors of the Society to review these policies, recommend any changes they felt to be necessary, and put the policies into written form in clear, easily understood language. This was done in accordance with the Board's directive and duly passed.

Pertaining to the Board of Directors is the policy concerning committee appointments made by Board members each year. They will now be made on this basis: The Central Office will inform the Directors of the vacancies on the various committees to be filled from each branch. Each director will contact those whom he wishes to appoint, ascertain their definite willingness to serve, and furnish the Society office with a list of these appointments. These are then reviewed and approved by the entire Board. These lists will then be published in the FORTNIGHTLY REVIEW.

The policy regarding the appearance of any member of the Chicago Dental Society on any regularly scheduled or scheduled-in-advance radio or television show where a script will be used, states that the script must first be approved and passed by the Society. This does not apply to "off the cuff" programs such as Jack Eigen, Marty Faye, and Tony Weitzel, or others of a straight "interview" nature.

Another policy states that the Chicago Dental Society will not undertake to have a dentist's assistant relieved of jury duty. It is felt that the dentist's privilege of immunity from jury duty is sufficient.

It shall also be the policy of the Chicago Dental Society that no official business be discussed with the Society's attorneys without first clearing with the Central office of the Society.

Any member of the Society wishing to make outside contacts in behalf of the Society shall make these contacts through the committee of the Society pertaining to the activity involved, not on his own.

The individual Branches of the Society shall not enter into any arrangements with insurance companies to set up Branch Group Insurance Plans of their own.

Relative to the procurement of dental assistants, it shall not be the policy of the Chicago Dental Society to undertake to

(Continued on page 31)

LETTER

To Component Society Secretaries and Executive Secretaries

September 16, 1958

Dear Doctor:

Federal legislative matters of vital interest to the dental profession continue to increase in number with each new Congress. The recently concluded 85th Congress considered more matters concerning dentistry than any previous Congress. It can be expected that this trend will continue and that the effects of federal legislative activity will be felt increasingly by dental organizations as well as by dentists in their everyday practices.

Because of the far reaching effects that federal legislation can have on dental health and the dental profession, it is necessary for dentists to be concerned not only with the issues before Congress but also with the candidates who will decide those issues.

The dentist as a professional man has the obligation to be a leading citizen of his community, particularly in matters of health. As a citizen with special competence in health matters, the dentist has an obligation to inform congressional candidates of the profession's interests and views and to work in behalf of the candidates of his choice.

Additionally, it is suggested that dental societies take steps to familiarize candidates for the United States Senate and House of Representatives with the profession's interest in legislative matters of particular dental interest. These matters might include:

(1) Support for the Jenkins-Keogh plan for encouraging retirement programs for the self-employed (which was overwhelmingly approved by the House in the last Congress).

(2) The need for continuing adequate appropriations for the dental research program administered by the National Institutes of Health.

(3) The need for grants-in-aid funds to assist in construction of dental school facilities.

(4) The inadequacies of the existing Medicare program for dependents of military personnel and the interest of the dental profession in assuring that any future dental care program for such dependents conforms with Association policies.

(5) The dental profession's conviction that private resources can cope with whatever inadequacies exist in the availability of personal health care.

The Council also suggests that the component societies commend incumbent members of the House of Representatives for their support of appropriations for dental research, including funds for construction of the National Dental Research Building, and of the Jenkins-Keogh retirement savings bill. Virtually all members of the House supported and voted for these two important measures. Incumbent members of the Senate might also be commended for their support of appropriations for dental research and the National Dental Research Building.

The Council on Legislation deeply appreciates the excellent support it has received from component societies in connection with major dental legislation.

Sincerely yours,

J. Claude Earnest, D.D.S.
Chairman
Council on Legislation
American Dental Association

JCE:pl

EDITORIAL

Let Us Say Thank You to Our Public Servants

Elsewhere in this issue appears a letter from Dr. J. C. Earnest, Chairman of the Council on Legislation of the American Dental Association, in which he summarizes the accomplishments of the 85th Congress. Be sure to read it for it shows how the last Congress dealt with more legislation that affects dentistry directly than any other Congress in history. There is no need for the writer to go into more detail except to urge that you read this excellent letter and then act.

It is the Editor's thought that each of us take time out to write a letter of "thank you" to the Congressman in his district and to our Senators for the support of measures that will benefit the health and welfare of the public. I am sure it will be a welcome surprise and a very pleasant feeling for these men to get a pat on the back instead of a request for something, or a gripe. This same pattern could be carried out with our State Representatives and Senators for we are grateful to the majority of these men for their help.

Secondly, it would be well for each of us to become acquainted with all the candidates who aspire to office in our district and bring to each the information about legislation that affects the health of the public. May I urge that we go beyond an interest only in those matters which affect our health professions and take a strong position of leadership in all civic affairs. We no longer can sit back and "let George do it" for we may wake up to find that what George has done is not what is best for our community. As the writer has said a number of times, "Get off the seat of your pants and assume your full responsibility for keeping our community and our country strong and free." That can only be done by everyone exercising his right to make his wishes known through intelligent use of the ballot. Health problems are no longer the concern of the health professions alone but are becoming the concern of an increasing number of organized groups as indicated by the ever larger number of bills being introduced in the legislature.

Walter L. Oblinger, Associate Counsel for the Illinois Medical Society, in his *Springfield News Letter* to the members of the Society, had this to say:

"The future of medicine will be decided by our elected representatives in Congress and in state legislatures. Doctors generally fail to realize this. At the state level our General Assembly has power over such things as licensure, osteopaths, and chiropractors, and the scope of practice of each; taxes of all kinds including a possible privilege tax on service and occupations (M.D.'s); insurance laws affecting medical, health and accident policies; control of hospitals through imposition of standards of all kinds; social welfare legislation imposing control over all segments of medical practice through control of public grants for such things as care of the indigent, polio vaccine, etc.; corporate practice of medicine; anti-trust legislation; physical and mental rehabilitation programs; IPAC, Health and Welfare Department appropriations."

Although dentistry was not mentioned it is equally subject to the controls and affected by the action of the legislative bodies of the state and the national Congress. May we urge you, as members of a leading health profession, to write those letters of "thank you" and after that is done, set out to acquaint

yourself personally with the men who aspire to public office so that you can keep them informed about the problems that confront the health profession. Only an informed electorate can elect dedicated and worthy candidates to public office who will serve all of us. This is in no way an appeal to partisan politics but an appeal to each one of us as citizens of this great country of ours to exercise our God-given right to vote as we please for whom we please, an important part of our American heritage.

DO IT NOW! TOMORROW WILL BE TOO LATE.

The Blue Ballot? Study It!

[Editor's Note: *Your urgent study of the Blue Ballot is necessary if you are to arrive at a sound decision on its content. The Judicial Amendment is a very important item on the ballot for it deals with the modernization of our judicial and court systems. You know as members of the Society the delay and snail-like movement of court cases as was evidenced in our injunction procedure against illegal practice of dentistry. This is just one example of our archaic system which this amendment hopes to correct. Others appear in the body of this release. After having given the Blue Ballot your thorough consideration, be sure to make your decision effective by voting on November 4th. BE SURE TO VOTE!*]

It is the responsibility of every citizen to take advantage of his cherished right to vote . . . so be sure to vote at the November 4 general election.

This election is particularly important because a proposal for modernization of the entire Illinois court system will be submitted to the voters for approval.

It is the Judicial Amendment which will appear on the Blue Ballot. This amendment will:

- abolish Justice of the Peace courts and “speed-trap justice.”
- streamline the court system, making possible better courts for less money.
- make possible a family court to handle complex problems of delinquency, dependency and divorce with which the present system cannot cope.
- provide for businesslike supervision of all judicial personnel so that taxpayers get their money’s worth.

More than 60 business, labor, farm, and civic organizations have endorsed the amendment. It deserves your careful study and consideration.

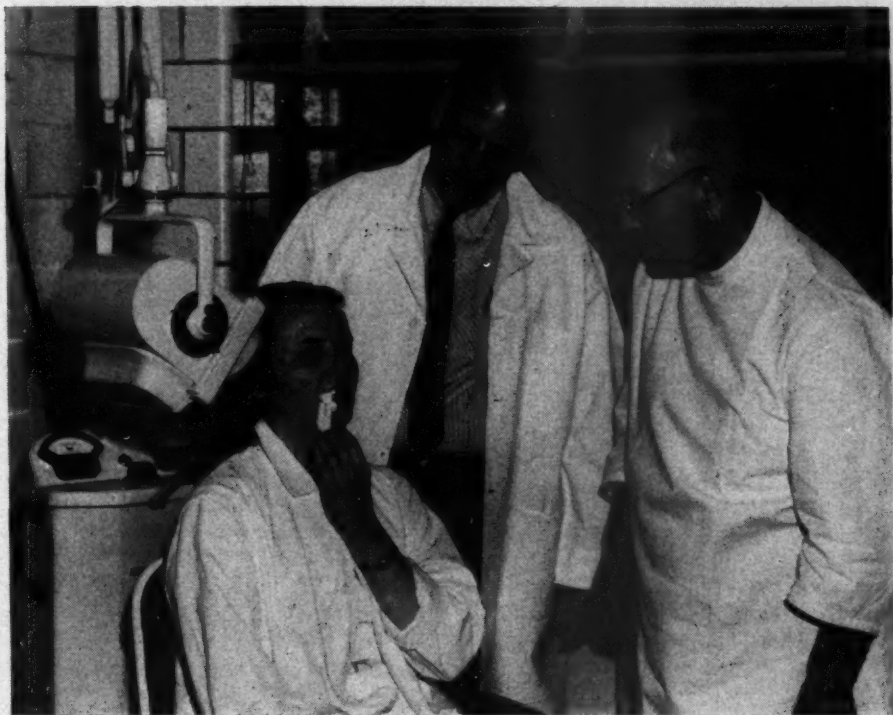

94th MIDWINTER MEETING

The Chicago Dental Society

Conrad Hilton Hotel

February 8, 9, 10, and 11, 1959

Better Dental Health Through Industrial Surveys

For about a decade the G. D. Searle Company, pharmaceutical researchers and manufacturers of Skokie, Illinois, has enjoyed a cooperative relationship with the Chicago Dental Society, resulting in full mouth x-ray and clinical examination for each of its employees. Pictured above are Mrs. Joan Tappen, ready to be x-rayed, Dr. Allan P. Skoog, Searle Medical Director, and Mr. Edward Bierman, dental society x-ray technician.

Upon completion of the program, x-rays and clinical examination reports of employees are mailed to their family dentists. Follow-up on these referrals indicated that between 60 and 70 per cent of employees actually go to their dentists for necessary dental care. The Chicago Dental Society believes that more companies should avail themselves of this preventive health service. The program is under the direction of the Committee on Dental Health Education with Dr. James D. Mershimer as Chairman and Edgar T. Stephens as Program Director.

MAKE A NOTE TO VOTE NOVEMBER 4TH!

NEWS AND ANNOUNCEMENTS

NAVAL RESERVE MEETINGS COMPANIES 9-2, 3, 5

24 October: Admiral Alfred Harris, DC, USN, will be guest of honor at a dinner-meeting at the Chicago Yacht Club. Dr. Harold Hillenbrand will be guest speaker. Time 1830.

29 November: Dr. Irving Selter will speak on "Hypnosis in Dentistry."

19 December: Dr. Robert Atterbury will discuss "Oral Surgery."

23 January: Col. Joseph Bernier, DC, USA, of the Armed Forces Institute of Pathology, will be the speaker; his subject, "The Effects of Modern High Speeds in Dentistry."

All scientific meetings will begin promptly at 2000 hours at the Chicago Yacht Club. Dinner on regular club menu will be available for those desiring to attend early.—*CDR Alfred J. Ryan, DC, USNR (EUclid 6-2411), Program Chairman.*

N.U.D.S. NEWS

Several new postgraduate courses are being offered by Northwestern University Dental School. "Current Concepts in Operative Dentistry Applied to Daily Practice" will be presented December 1, 2 and 3—"Newer Concepts in Periodontics" on February 2-6; and "Intermediate Oral Surgery" is scheduled for March 16-20. Further information concerning the courses may be obtained from Dr. Eugene W. Skinner, Director of Dental Postgraduate Study, 311 E. Chicago Ave., Chicago 11, Illinois.

On October 22, 3:00 p.m. at Thorne Hall, Prof. A. C. W. Hutchinson will deliver the annual G. V. Black Memorial lecture. His topic will be the role of pathology in the practice of dentistry. The lecture is open to all who are interested and members of the Chicago Dental Society are especially invited.

POLITO AND ROWLAND ATTEND A.D.A.-LABORATORY MEETING

Two South Suburban Branch members, Nicholas A. Polito, Chairman of the Legislative and Law Enforcement Committee of the Branch, and LeRoy T. Rowland, Chairman of the Dental Prosthetic Service Committee of the Branch, attended the two-day symposium on Programs Affecting Relations Between the Dental Profession and the Dental Laboratory Group. Official Chicago Dental Society representative at the symposium was Dr. Ben Davidson, Chairman of the Society's Dental Prosthetic Service Committee.

We are especially grateful to these dentists who are aware of the problems of illegal laboratory operations, possible self-styled "denturist" agitation for legislation, movements for laboratory licensure and/or registration and wish to inform themselves about how these matters are being approached in other sections of the country and to learn about the new certification program for dental laboratory technicians and the other cooperative programs wherein the profession is working with the ethical laboratories to further the interests of both groups who took their own time to make themselves better able to serve their Society in their appointed capacities. One man like this is worth a hundred whose only contribution is to the din in front of the bar before his branch meeting where he blubbers through the bubbles on his beer about "Why doesn't the Society do something about the advertisers etc. etc."

U. OF I. HOMECOMING

The Homecoming of the Dental Alumni Association of the University of Illinois will take place on Wednesday, December 3rd, on the University's professional colleges campus in Chicago, was

(Continued on page 26)

NEWS OF THE BRANCHES

Kenwood-Hyde Park

Sitting about the lunchroom of recent days, the conversation has taken for me what is an alarming drift. In consequence I feel compelled to make the following observations.

Why a taboo on discussion of sex and taxes,

But not on that of hinge or axis.

I have grown to hate

All mention of the word, "equilibrate."

With boiling oil I should like to anoint

All those who mention, temporomandibular joint.

Discussion of intercuspal digitation,

Starts anew my occlusal irritation.

Masticatory stroke, power bite, occlusal glide,

Are among the topics I cannot abide.

If all who read this would keep me sane,
From all above, please refrain.

A communication from Tom McMeekan, who will be the speaker of the November 4th meeting, has been received. The theme of the meeting is the continued education of the patient to appreciate a more thorough dental program than most have had the opportunity to receive. Dr. McMeekan urges that the dental assistants be present at this meeting for their benefit as well as an aid in presenting the principles to the dental patients. It will be shown how the assistant is utilized to "tie" the patient to the office, to enter into patient confidence, to do patient education and how to handle the various situations that arise in every practice and the many diverse personalities who present themselves for dental treatment. From reading the synopsis of Dr. McMeekan's presentation I believe all Kenwood members, their assistants, and members of other Branches would do well to reserve this date for a most informative meeting. . . . The many friends of Harland E. Haines will be happy to know he is feeling well and recovering from the illness which forced

him to retire from practice last year.

. . . Kenwood will be represented at the Dallas meeting by Bob Wells in his capacity as Illinois trustee. . . . Walt Dundon is off to Boston for the meeting of the National Association of Dental Laboratories. . . . To complete the travel news of our peripatetic Kenwoodians, Elmer Ebert and Ascher Jacobs are off to Springfield for a meeting of the Public Health Committee of the Illinois State Dental Society. . . . Mike Levin, formerly a member of Kenwood who has practiced in Joliet for the past thirteen years, recently passed away. In behalf of Mike's many friends, sincere sympathy is extended to Mrs. Levin. . . . Word has also been received of the passing of the mother of our vice-president, Franklin Otto. To the bereaved family, our condolences.—*M. B. Gelberd, Branch Correspondent.*

Englewood

The program chairman tells me that an old familiar name will grace our November meeting, that of Wm. O. Vopata, speaking on "The Challenge of Modern Dentistry." . . . We aren't able to kill the travel bug, some weak men are still succumbing; Al Schubert is in eastern Canada shooting moose and bull—Stan Pacer is down Ozarkway living up the atmosphere—and Libman has been up in Wisconsin with his family—me, well, I did get down to Greencastle with the youngest girl all in one day. . . . Don Loiben had an eventful week, cast removed from the broken thumb (so he could pass out cigars more proficiently) and child number one showed up for him and Lois, Teddy weighed in at six pounds and eight ounces. . . . Looks like a little church news here on the desk, Tom Tuomey's son, William, received the habit of the Irish Christian Brothers in West Park, N. Y., and Tom and Mrs.

Starshak were invested as Knight and Lady of the Equestrian Order of Jerusalem in New York City—which recalls the man who went to Heaven in 1958, the Saint said: "You ain't due till 1962; who the devil's your doctor?"—*Webster Byrne, Assistant Branch Correspondent.*

Northwest Side

Thanks to the many fine members of the Northwest side who have contributed news items and therefore have made my task as branch correspondent an easier and more pleasant one. . . . Jim Griseto received a card from Jerome Piekos, formerly of 6027 W. Addison street, who has recently moved to Phoenix, Arizona, and expects to open his new office there soon. I am sure that Jerry Piekos would appreciate receiving correspondence from his many friends. His present address is 1118 E. Marlette Ave., Phoenix, Arizona. . . . Viggo Sorensen and family spent a couple of weeks vacationing in Siren, Wisconsin. Viggo didn't have enough so he and Bill Walters spent an additional week at Eagle River fishing for muskies. Bill was the lucky one. . . . Jack Applebaum spent a long vacation basking in the sun of the West's sunny clime. . . . V. Griseto was chairman of a reunion and benefit card party for "The Friends of the Chicago Commons"

which was held at the Lafayette Park auditorium Friday, October 3rd. . . . The moving "bug" is still around with Bill Friedman moving into his new office building at Western and Devon and Bob McParland moving into his new home in Park Ridge. . . . Congratulations are extended to Bob and Terri Pawlowski who became the proud parents (their fourth) of a boy, Bernard William Pawlowski, weighing in at 9 lbs. 2 oz. . . . There is a radio star in our midst in the person of Dr. James D. Mershimer who is Chairman of the Committee on Dental Health Education and in conjunction with this activity has spoken on radio station WJJD in regard to the importance of dentistry for children. . . . We of the Northwest side extend our deepest sympathy to the family of Dr. William J. Readdy who recently passed away. . . . The Academy of General Dentistry is holding a course in finance and investments at De Paul University which begins around the middle of November. The plan currently calls for 4 or 5 sessions to be held in the mornings. There will be a discussion of Stocks & Bonds, Real Estate, Insurance, and Investment planning. All are cordially invited to attend these sessions. Further details on registration can be had by calling Ted Weclaw. . . . A must on your calendar

(Continued on page 27)

\$2,250,000 IN DENTAL FEES!

Yes, \$2,250,000.00 is the amount of dental work financed under the Chicago Dental Society's Budget Plan since its inception. Have you and your patients shared in this?

Over 1600 of our members have been relieved of the burden of collecting accounts and have made it possible for more of their patients to obtain complete dental services without delay.

If you have not already done so, avail yourself of this additional benefit of membership in the Chicago Dental Society. Simply call or write the Society's office, 30 North Michigan Avenue, RAndolph 6-4076. Should you have any questions or desire additional information, feel free to contact **The First National Bank of Chicago, Consumer Credit Department, Franklin 2-6800**. The Bank will be pleased to have a representative call at your office to explain the Plan, if you so desire.

NEW TECHNIC

NEW TECHNIC

PORCELAIN JACKETS

FIRST TIME in forty (40) years that the impression technic for the construction of PORCELAIN JACKETS has been improved or changed to make it easier, simpler, quicker and more successful for you. The new technic is without a copper band impression and without plaster impression with inlay wax cap in place. We construct our stone dies and stone model from only one RUBBER BASE IMPRESSION MATERIAL impression in a tray. Many hundreds of our customers have switched over to RUBBER BASE IMPRESSION MATERIAL for the following good reasons:

This is what RUBBER BASE IMPRESSION MATERIAL will do for you

- No more selection of copper bands.
- No more fitting of copper bands.
- No more festooning of copper bands.
- No more taking of copper band impressions.
- No more remakes because of faulty impressions.
- No more miss-set amalgam dies.
- No more broken impressions.

RUBBER BASE IMPRESSIONS are ideal for shipping as they will not fracture in transit.

Model can be run weeks later. Heat or cold does not harm them.

This is what RUBBER BASE IMPRESSION MATERIAL will do for your patient

- No more copper bands to cut patients' gum tissue.
- No more copper bands to cause hemorrhage.
- No more copper bands to cause extreme pain.
- No more patients returning for unnecessary remakes.

This is what RUBBER BASE IMPRESSION MATERIAL does for us

Enables us to construct much finer PORCELAIN JACKETS.

It gives us all the delicate and minute characteristics of the patients' teeth we are to reproduce.

It prevents us from miss-seating the old amalgam die.

Now, we do not set a die in anything; it is an integral part of model. Our new stone die is cut out of our stone model made from your one RUBBER BASE MATERIAL impression.

No more "beat-up" amalgam contacts that do not reproduce patients' teeth.

Our PORCELAIN JACKETS made from your good RUBBER BASE MATERIAL impressions should be so perfect you will never have to touch them with a stone or disk.

Phone or write for free literature . . .

COMPLETE PORCELAIN SERVICE

Standard offers you a complete Porcelain and Gold service including all types of restorations from a single crown to a complete mouth rehabilitation. You are cordially invited to visit and inspect our New Porcelain Department, see our modern equipment, and talk with the technicians to whom you entrust your work. Plan to stop in the next time you are in "the Loop."

Among our ceramic services are Standard Vacuum Baked Porcelain Jacket Crowns made with a special high fusing porcelain for greater strength and density. This results in esthetics of a high order, a texture that is as natural as it is possible to produce, a resistance to the severest occlusal stresses.

Permadent restorations consisting of a high fusing porcelain on ALL surfaces (including the ridge) are scientifically matched, BONDED

and baked directly to a special platinum-palladium alloy by means of a unique process. This combines the life-like beauty of translucent porcelain with the fit and strength of precious metal.

Other Standard constructions recommended by dentists everywhere include Standard Cal-bilt Porcelain and Gold bridgework, porcelain veneered gold crowns, thimble bridges—everything you require for any patient who presents himself to your care.

Remember, we pride ourselves on the fact that "Standard quality" is the highest quality obtainable anywhere. We are particularly concerned with the minutest detail... with the exacting fit of our restorations, with the chairtime they conserve, with anatomical accuracy, margins, contacts, shades and coloring—everything that contributes to the lasting success and satisfaction.

Black, \$55.50.

Now in Color!

The "Wonder Electric Mortar and Pesto" is now available in rainbow colors to match your equipment and blend with your office decor. Here are appealing, soothing colors to please the most discriminating patient. Here is sound color psychology to work for you. Also available are new housings in these beautiful colors for reconversion of older Black and White models.

The new color models provide all of the quality that has made the Wig-l-bug famous throughout the world. It takes just 7 to 10 seconds to produce a smooth, fine textured mix of alloy and mercury. The results are uniformity, better fitting, stronger, longer lasting fillings...Your investment in a Crescent Wig-l-bug pays even greater dividends than ever before.

PROSTHETIC TECHNICIANS

Never Felt Better

Many dentists have told us that since they have had PBP they're right with the world; they have that satisfied feeling of competence, of knowing they are serving their patients better and able to serve more patients.

Men tell us that they are content; their practice is going the way it should. They have more time to spend with their families and they have peace of mind.

PBP's methods of case presentation and handling of accounts helped hold present patients and attracted new patients, too.

For your free copy of "Your Practice IS Different," fill out and mail today.

NEWS AND ANNOUNCEMENTS

(Continued from page 12)

announced recently by Dr. Robert Atterbury, President of the Alumni Association.

The entire day will be devoted to an excellent program which will be rewarding both personally and professionally. The day's program will begin at 9:30 a.m. and will conclude with a social hour in the Illini Union Building. Dr. Arthur Skupa, Chairman, reports an enthusiastic interest in the affair.

ARCOLIAN SOCIETY MEETING

The Arcolian Dental Arts Society will meet on Tuesday, October 28, at the Belvedere Restaurant, Grand Avenue and Austin Blvd. The scientific program will begin at 8:30 p.m., sharp. The speaker for the evening will be Dr. N. Brescia; his topic, "Dental Anesthesia and Temporomandibular Joint Anatomy." Members are invited to bring a colleague.

LOYOLA POSTGRADUATE COURSES

Oral Pathology will be the subject of postgraduate courses offered by Loyola University School of Dentistry. On October 27-29, "Pathology of Oral Inflammatory Lesions" will be the subject matter, and on November 3-5 "Pathology of Neoplasms of the Oral Cavity" will be under discussion.

Faculty members Patrick Toto, D.D.S., M.S., Thomas L. Grisamore, M.D., D.D.S. and John J. O'Malley, D.D.S., M.S. will have charge of these courses.

Further information may be obtained by addressing the Director, Postgraduate Division, Loyola University School of Dentistry, 1757 W. Harrison St., Chicago 12, Illinois.

You can do a lot with an old house these days if you're handy with money.

NEWS OF THE BRANCHES

(Continued from page 14)

of events is the next meeting of the Northwest side branch on Tuesday, November 4th. The subject will be, "Marked Reduction of Radiation by Selective Filtration" given by Dr. Seymour Yale of the University of Illinois. Please mark this day off in your appointment book now.—*Chester L. Jasick, Branch Correspondent.*

West Side

A couple of September vacationers were Leo Cahill and Bill Pendergast. Leo spent a week of delightful fishing in the wooded lake areas of Minnesota; and Bill took a trip to the Southwest including New Mexico in his itinerary. . . . Sad to report that F. G. Conklin, a past-president of the Chicago Dental Society and long-time member of the West Side Branch, passed away recently. Dr. Conklin had practiced on the West Side for over fifty years. He is survived by his wife, Helen, two sisters and one brother. . . . Sam Kleiman, one of our West Side stalwarts, past-President of the Chicago Dental Society and also of the West Side Branch, is a very busy man these days. Sam is a candidate for County Commissioner from Chicago on the Republican ticket and with the end of the campaign drawing near he has become a really seasoned campaigner. . . . Herman Nedved, formerly of 3958 W. 26th St., has moved his office to Berwyn. Good Luck! . . . F. J. Nienstedt's son recently returned from Germany after having served for two years in the armed services. . . . Personality Highlight for today is Dan Podore of 55 E. Washington. Dan is one of those rare individuals whose zeal for ideal dentistry is matched by an ability most of us would be blessed to have. If he were stranded on a South Pacific island with nothing but raw materials, I'm sure he would be able to reconstruct a complete dental office down to the last ultra sharp scaler. In manner and demeanor, he might remind one of a kindly James

Mason with the patience of Job. Dan has a charming wife and two lovely, talented and brilliant daughters. Judith, 19, is presently working on her Master's degree at the University of California on a Wilson Fellowship. Deborah, 15, is a very promising student of the ballet, and may some day become a ballerina. . . . The news has been coming in more regularly, but we'd like to have more so here's my number again, MA 6-2928.—*Samuel Silver, Branch Correspondent.*

North Side

Our Committee Chairman and Board of Directors are really clicking! At our last Board meeting, we had a record attendance—present were: Frank Hanagan, Carl Sudakoff, Earl Elman, Art Duxler, Paul Brown, Harold Rabin, Sol Burnell, Stan Goldberg, Herb Gustavson, Rube Kadens, Bill d'Autremont, Ronny Rothenberg, Ed Shapiro, Clif Alsin, Herb Krummel, Ray Bro, Ted Siegel, Jules Barrash, Mark Mendelsohn, Hank Parkin, Howard Adilman and yours truly. By now, you have all attended the first of our series of workshops, and the next column will have a more complete report of our first general membership meeting. . . . The big news now is Clinic Day. Once again, you can expect a real bang-up affair. In addition to the many table clinics and commercial exhibitors, this year we are featuring two excellent Limited Attendance sessions. Dr. S. Joseph

Bregstein, author and lecturer of New York University College of Dentistry, will present a complete plan consisting of: 1. Presenting a Treatment Plan to Your Patients—How to Judge Personalities and Attitudes; 2. Preparation of Diagnosis and Treatment Plan; 3. What to tell the patient and how to say it; 4. How to overcome objections; 5. Effecting acceptance of your treatment plan. . . . Marvin E. Mundel, Prof. of Management on leave of absence from Marquette U., author of books and many articles on Time and Motion Studies, will present: 1. Motion Study—a new way to look at dental activity; 2. What the dentist can gain thru using Motion Study in dentistry; 3. Examples of the application of motion study to dentistry; 4. How to obtain the benefits of motion study for yourself. . . . Look for our fliers and materials for Clinic Day, Wednesday, November 26th, at the Edgewater Hotel. . . . Frank Hanagan, our president, is an excellent host at our board meetings. Always lots of cocktails, fruits, nuts, cake, ice cream and coffee. He is going to make it tough for the next president to follow his example. . . . Herb Gustavson is off again to Columbus, Ohio, to the Ohio Academy of Practice Management. He is quite handicapped because of the illness of his assistant. Herb, Ed Walker and Herb Krummel attended the Illinois-Eastern Iowa Kiwanis Convention in Springfield, Illinois. . . . Harold Lange is sporting that foreign sports car, the Simca. . . . Marsh Nilsson's boy Ronnie, is making quite a

name for himself as a football player at Notre Dame. . . . We welcome Marvin Waller's transfer to our branch from Englewood. . . . Ed Shapiro just returned from an extended vacation to Georgia where he visited his daughter Deanne and her husband, Private Shore (who incidentally expects to be released from the army in November). Ed was impressed with the wonderful hot and dry climate there, and then he and Mrs. Shapiro and son, Harold, went on to Miami to complete their vacation. . . . Les Kaplin didn't go west for the hay fever season, this year, but stayed in his air-conditioned home, eating all day and listening to his HiFi. . . . Max and Mrs. Chubin are still raving over the wonderful trip they took thru Estes Park and all surrounding territory. . . . Howard Adilman took his wife along on a second honeymoon over the Labor Day weekend at the Edgewater Beach Hotel. Probably making arrangements for Clinic Day. . . . Sam Zapolsky is recuperating nicely after his surgery and so is Phil Lubar, who was operated on his back, but is now back at work. . . . Ben Block is asking all his dentist friends for advice on how to panel his basement. Can you help him? . . . Dan Silberberg's wife is expecting a baby any day now. Congratulations! . . . Attention, Veterans! Write your senator for your copy of the United States Code of Veteran's Benefits, Title No. 38. . . . As usual, Earl Elman called our attention to this publication, and points out that there are many benefits the veteran can avail himself of with

the knowledge contained in this book. Call Carl Sudakoff, Chairman of Leg. and Law Enforcement Committee, for more information. . . . When you observe any illegal dental laboratory operations, notify Ray Bro, Chairman of the Dental Prosthetics Committee at Ind 3-8860. . . . Don't forget Clinic Day! Edgewater Beach Hotel, Wednesday, November 26th, all day. . . . What did you think of the Workshop? Next Workshop in January. . . . See you at Clinic Day! *I. H. Shapiro, Branch Correspondent.*

West Suburban

Now that the golf season is over and our Cubs and White Sox settled in their usual positions in the standings, let's hope that our Chicago Bears will give us something to cheer about. Good luck to Papa Halas and the team. Now for some news . . . Far West Study Club will meet at Louis' Restaurant on Thursday, October 23. The speaker will be Dr. Harold Epstein. His topic will be "Endodontics Under Pressure." This meeting place is in Addison, Illinois, Route 20 west of Route 83. . . . Wayne Dunnom attended a workshop dealing with dentistry for handicapped children at the University of Pennsylvania. This workshop is the first of its kind in the field of dentistry for the mentally and physically handicapped. Wayne also spoke in St. Louis before eighty-one delegates attending the three-day meeting held by the American Academy of Pedodontics. He talked on

THE ONLY WAY TO KEEP PROGRESSIVE

is to prepare yourself for all eventualities with the FRIE-S-CO Wonder Set of Elevators and Forceps. If you do it yourself, you will know the simple way to extract Teeth. If you are NOT prepared or acquainted with the simple way, **THE PENDULUM MOVEMENT**, communicate with us. We furnish instructions for each instrument. You will experience that the difficult cases will be easy, and the easy cases easier. Ask your Salesman to furnish you with a whole Set of 16 Elevators on Approval for 30 Days, or communicate with us. Do not fail to see our exhibit at the forthcoming convention.

the use of general anesthesia in private offices. The *Dental Times* carried a full article of this meeting. . . . Merrill Shepro is going back to teaching again at the University of Illinois College of Dentistry. He will be teaching a graduate course in educational psychology for members of the faculty and graduate students who are preparing for teaching careers. . . . Jim Ridlen was elected 2nd vice-president of the Chamber of Commerce of Western Springs. Congratulations, Jim! . . . Walter Wicklund left last May on a trip to the Scandinavian countries, the Brussels Fair, Vienna, Munich, Switzerland, Spain, Portugal and Morocco in Northern Africa. He came home in the middle of August, and spent two weeks near Rhinelander at "Holiday Acres" to rest up. Rest up?? Come on, Walter, after that, who needs it? We should get so tired. . . . Marv Blechman took off three days to see how they were biting in Eagle River, Wisconsin. . . . The Robert Strenks are dating the stork. . . . Congratulations to Frank Lucatorto on his appointment as assistant professor in Pathology at Loyola Dental School. . . . Art Skupa has added to his teaching curriculum at University of Illinois Dental School a course for dental assistants. . . . At the University of Illinois Dental School, Charley Hebting is teaching Operative Dentistry, and Gene Zawlocki is teaching Crown and Bridge. . . . Ed Hovorka and Harry Kanta spend all of their leisure time boating at Fox Lake. . . . Emil Kern is bowling in the Holy Cross League. . . . Our deepest

sympathy to Ralph Motto on the loss of his father. . . . Our thanks to Edward Budill for the opportunity to write these last two issues. So long for now.—D. J. Catrambone, Assistant Branch Correspondent.

North Suburban

Dentures, alloys, and bridges aren't the only products of the Lake County Dental Society these days. It seems we are still adding to the nation's population. Our esteemed president, Neal Nielson of Deerfield just fathered his third child, a boy, Lee Eric, in mid-August, and Ira Niederman of Highland Park also came forth with an Eric, early in September. Two more future dentists to add to the ranks, unless their fathers wise them up. Being a parent has its drawbacks though; after Bob Jans of Evanston announced his sixth, the beleaguered Parents' Guild of Highland Park elected him president. . . . The do-it-yourself drive is hitting a few of the men this past month; Chick Gold is undertaking the landscaping of his garden out in Highland Park; Emil Mueller, also of Highland Park, has been seen doing a non-union painting job out on his farm in Buffalo Grove; and I recently threw down a vinyl-asphalt tile floor in my home one night while waiting for my soulmate to dress for an evening out. . . . As far as my informants can tell, only one member has still been vacationing, Herb Dangremond took a train trip early in August, went into Denver and

around Pike's Peak. . . . A few others have disguised their vacations; Ray Thorsen attended the Wisconsin seminar in August, and Paul Bass of Wilmette was at the seminar in Door County. It seems he lost his wristwatch during an outdoor study period, but a little man with a lawnmower found it for him, so he at least got back most of the pieces. From the sign on his door, I see that Larry Kelly, of Mundelein, is off again to another postgraduate course this weekend. That boy's going to be the smartest dentist in Lake County if he sticks to these postgrad courses. . . . I hope by the time we get to read this gem in print that George Postels, of Highland Park, will be all recovered from his siege of pneumonia in the hospital, and will be back at his post, helping to grind out caries and saving teeth. . . . I trust that everyone will forgive me if some of this news seems dated, but you all must remember our budget does not permit us to subscribe to any of the national news services, and also, the copy must be on the editor's desk two weeks prior to the date of issue. . . . In passing, I would like to remind all members of the Lake County Dental Society that if your dues are not in the treasurer's greedy little paws by the end of November, your name will be deleted from our mailing list. . . . Also, we have definitely set the date for our excursion to Eli Lilly Co. for Dec. 7, 8, and 9. So if you plan to attend, cross those dates off your appointment books. —Ed Sherwood, Assistant Branch Correspondent.

POLICY COMMITTEE

(Continued from page 7)

locate and furnish dental assistants or other office personnel for the members.

The policy regarding meetings states that all Branch meetings and all committee meetings of the Chicago Dental Society shall be first cleared as to time, place and date with the Central Office. All official meetings, committee meetings and others, shall give ten days' notice of their calling unless a dire emergency exists. All Branch golf outings should be cleared first with the Central Office to avoid overlapping of dates. The date of the Chicago Dental Society Golf meeting shall be held always on the third Wednesday of June, and this date shall not be changed.

It shall be the policy of the Society that all complaints and grievances coming into the Central Office shall be entirely in writing, and no discussion entered into with the patient making the complaint regarding his grievance.

These are some of the Society policies, and more will follow in the next issue of the *FORTNIGHTLY*. We think you will agree that many of the policies have been made more effective by a change here and there, and should alleviate some of the problems formerly found in the Society's policy structure.

A Career: Something you study years to get into and then spend the rest of your life trying to earn enough to get out of.
